

SANKETKUMAR ZANZMERA

Aspiring Cybersecurity & SOC Analyst | MSc IT

Ahmedabad, Gujarat, India | sanketzanzmera@gmail.com | linkedin.com/in/sanketkumar-zanzmera-12589424a | github.com/zanzmerasanketkumar

PROFESSIONAL SUMMARY

MSc IT student and aspiring Cybersecurity/SOC Analyst with hands-on experience in cybersecurity labs, SIEM, security monitoring, log analysis, Linux environments, network security and security tools. Practical exposure to Splunk, Kali Linux, Nmap, Burp Suite, Metasploit, and Windows/Linux security logs through self-directed labs and projects, supported by prior internship experience in data science.

TECHNICAL SKILLS

Cybersecurity: SOC, SOC Level 1, SIEM, Security Monitoring, Log Analysis, Incident Detection, Network Security, Vulnerability Assessment, Web Security, Threat Detection

Security Tools: Splunk, Nmap, Burp Suite, Metasploit, Wireshark, Kali Linux, Hashcat, John the Ripper, DVWA

Programming: Python, Java, C, SQL

Web Development: Django, Flask, HTML, CSS

Cloud & DevOps: AWS, Docker, Git, GitHub

Data & Big Data: Pandas, NumPy, Hadoop, HDFS, MapReduce, Apache Spark, PySpark

CYBERSECURITY PROJECTS

SOC Level 1 Manual Log Investigation | *Windows & Linux Security Logs, Manual Investigation*

- Manually investigated Windows and Linux security logs to identify and review authentication-related events.
- Applied SOC Level 1 investigation methodology to triage log entries and assess potential security relevance.

Cyber Kill Chain & MITRE ATT&CK Analysis | *Threat Analysis, MITRE ATT&CK, Cyber Kill Chain*

- Mapped a real-world attack scenario to each stage of the Cyber Kill Chain, from reconnaissance through actions on objectives.
- Cross-referenced attack techniques against the MITRE ATT&CK framework and identified potential detection opportunities at each stage.

Windows Security Log Analysis with Splunk | *Splunk, Windows Event Logs, SPL*

- Ingested Windows Security Event Logs into Splunk and built search queries to filter authentication-related events.
- Analyzed logon activity, including successful logons, failed logons and privilege assignment (Event IDs 4624, 4625, 4672).

SOC Sentinel — Real-Time Security Monitoring & SIEM Platform | *SIEM, Security Logs, Dashboards, Docker*

- Built a security monitoring platform for centralized log collection from multiple sources into a single dashboard.
- Implemented alerting on security-relevant activity to support analyst investigation and follow-up.

AWS Cloud Infrastructure Practicals | *EC2, VPC, Subnets, Security Groups, EBS, S3, DynamoDB, NAT Gateway*

- Provisioned EC2 instances with Elastic IP and EBS storage, secured with configured security group rules (academic/practical work).
- Designed a VPC with public and private subnets and a NAT gateway, and configured S3 and DynamoDB for storage.

EXPERIENCE

Data Science Intern | Maxgen Technology Private Limited

Jan 2025 – Jun 2025

Ahmedabad, Gujarat, India — On-site

- Worked across the data science workflow on real-time datasets, from preprocessing through analysis and visualization.
- Used Python libraries including Pandas and NumPy for data cleaning, preprocessing and analysis.

EDUCATION

Master of Science (MSc) — Information Technology

Jul 2025 – May 2027

Gujarat Vidyapith, Ahmedabad

Bachelor of Computer Applications — Computer Programming, Specific Applications

Jul 2022 – May 2025

Gujarat Vidyapith, Ahmedabad | Grade: First Class

CERTIFICATIONS

Become Next-Generation Ethical Hacker with AI

WsCube Tech | Issued September 2026 | Credential ID WS/2026/M/64624

How to Become a Certified SOC Analyst in 2026

WsCube Tech | Issued September 2026 | Credential ID WS/2026/M/63909
